Property management matter

1. Introduction and reason for report

- 1.1 A local resident has asked this Council to replace a dilapidated fence adjoining the public open space at The Mount.

2. Background information and options

- 2.1 The photograph below shows the fence in question. The existing fence is beyond economic repair. It would be necessary for the grounds team to cut back the vegetation before a new fence could be installed.
- 2.2 For safety reasons, a simpler (and cheaper) post and rail or wire fence would be unsuitable. A new timber panel fence would be vulnerable and unlikely to last long in this location. The recommended replacement is therefore a 1.8m high green coated 'V mesh' fence similar to that recently installed at Carvers play area. A quote of £380 (exc. VAT) has been obtained from a local fencing contractor..
- 2.3 The Council's legal title is silent about the boundary; both in terms of ownership of this fence and responsibility for its maintenance. It appears to have been patched in the past but there is no evidence that, to date, this Council has accepted any responsibility for it. It is possible that parts of the fence, at least, date from the construction of the houses nearby and the transfer of the public open space to the Council.
- 2.4 Although, in theory, the fence may belong to someone else, it is impossible to prove this, let alone to compel that owner to repair it. It is also highly unlikely that anyone will challenge the Council if it chooses to repair it. The Council has the legal power to commission and pay for the work but is probably not obliged to do so. If the Council were to repair the fence, it is probable that it will be expected to maintain it indefinitely thereafter.

3. Issues for decision and any recommendations

3.1 Should officers arrange to repair the fence at the Council's expense?
